I've now completed my Invisalign treatment with

Dental Implants - We can proudly say we provide one of the 'world's leading' brand of dental implants by Straumann, a Swiss-based company which was founded in 1954 with more than 35 years of clinical evidence. For this reason alone I fully trust and believe in the Straumann system. It offers fantastic aesthetic and functional results with great reliability.

Enlighten Whitening - We are also your local centre of excellence for 'enlighten', arguably the best and only tooth whitening system that offers a guaranteed result of 'B1', which is the lightest colour in a normal tooth shade palette.

Invisalign - We also provide the world leading brand of 'invisible braces' (clear aligners) to straighten teeth called Invisalign. Invisalign's amazing results can usually be seen in about 6-8 months on average, (sometimes longer depending on the complexity). We can use the latest technology like the iTero 3D intra-oral scan, that can simulate your new smile in front of your very eyes in minutes. The results are fantastic!

Facial Aesthetics - Silicon Dental Centre offers facial aesthetics treatments to help you look and feel your best. Our facial aesthetics treatments are designed to enhance facial features and create a more natural youthful appearance.

Our services include currently include Anti-Wrinkle, dermal fillers, chemical peels, and more. All our treatments are tailored to meet your individual needs and goals. Our experienced team of professionals will help you create the rejuvenated look that you desire.

TO COMPLIMENT THE ABOVE WE ALSO OFFER PORCELAIN VENEERS AND COMPOSITE BONDING TO COMPLETE THE PERFECT SMILE MAKEOVER

All the above helps achieve the perfect smile that you deserve and have always wanted, delivered by our very experienced and highly trained team of dentists. <https://silicondental.co.uk/meet-the-team/>

We also carry out specialist level root canal treatment and oral surgery privately, which our patients find beneficial as it can save time, rather than be on long NHS waiting lists which sometimes is not preferred by some of our patients.

If you are interested in exploring or finding out more information about any of the above treatments, then please do call the reception team on 020289978899 or contact us here.

In future newsletters we will have features on our wonderful team where you can get to know them better, and learn some interesting facts about them that you would never have guessed.

From our newsletters you would have gathered that there have been a lot of great upgrades to the practice, now it's just a matter of seeing for yourself. We look forward to looking after you when you are next in, and to see what our patients are saying about us please click this link and read the reviews
