Welcome to the first newsletter from Silicon Dental Centre! We wanted to take this opportunity to share some updates about our dental practice.

The past few years has been difficult for everyone due to the Covid pandemic, and it seems like we're still facing challenges. Despite this, we've remained committed to providing our patients with the highest level of dental care and support during these trying times. We've also made some positive changes to benefit all our patients.

We hope you find this newsletter informative and helpful. As always, if you have any questions or concerns, please don't hesitate to reach out to us. We're here to help you maintain good oral health and a beautiful smile!

What's New ?

As you can see, the practice has a new look - a "smile makeover" it deserved. For those of you who have been visiting the practice recently, you would have seen the changes both from the outside and inside.

"At Silicon Dental Centre, we pride ourselves on aiming to give the best service and care to all our patients. We go that extra mile to make everyone feel comfortable, hence all the upgrades at the practice. We also strongly believe that everyone should have the opportunity to achieve the smile they have always wanted, with minimum discomfort and at a reasonable cost.

For those who have not been to see us for a while and for our new patients, we warmly invite you to experience the new look practice with the same, if not even more, calmer relaxed atmosphere here where many have said, **"I don't feel like that I'm at the dentist"**

At Silicon Dental Centre, we're committed to providing exceptional care and comfort to each of our patients. Our upgraded practice ensures a welcoming environment where you can relax and feel at ease. We believe that achieving your dream smile shouldn't be a painful or costly experience. That's why we're constantly innovating with new techniques, digital equipment, and premium materials to enhance our existing services and introduce new ones. Let us help you achieve the smile you deserve with minimal discomfort and reasonable cost
